**Gentle Yoga:** Yoga class that can be performed seated in a chair or standing on a mat. Class focus will be on flexibility, joint mobility, and breath. We will use multiple props during class to assist with poses. This class will be a great way to recover after a week of cardio and strength training.

**Healthy for Life:** This class is designed for our senior members. The focus is on functional movement, targeting light cardio, strength, balance, & flexibility.

**HFL 2.0:** Designed for our senior members who desire a bit more intensity in their workout. The focus is still functional movement, cardio, strength, balance, flexibility and core. During 2.0 we will increase the workload.

**Lift & Sculpt:** This class is packed with moves designed to sculpt you to a leaner and tighter physique. Each workout is total body and includes a warm up, lower body, upper body, core, cardio, and a cooldown/stretch. Strength training (dumbbells), body weight exercises, and cardio moves are included in this HIIT based format. You can work at your own pace during the working interval and modifications are provided throughout.

**Plank/Core:** Core body focus with various Plank holds and gentle stretching.

**Power Flow Yoga:** This class is a vigorous, dynamic style of yoga poses with breath and is linked together with continuous movement. Known to be a more athletic style of yoga that can improve flexibility, strengthen muscles, and support endurance. A mind-body connection is also a focus which can help lower stress levels. **PREPARE TO SWEAT!**

**Power Spin:** Focus on cycling power and conditioning, with a few upper body movements mixed in.
